

# Architecture & Construction - Cabinetmaking

## Degree Type

Specialty Programs

## Cabinetmaking Pathway

Students learn employability skills alongside workshop and tool safety as they practice reading blueprints; estimating and selecting materials; cutting and shaping stock; assembling, fastening, and installing components; and finishing surfaces. The technical, problem-solving, leadership, and creative skills learned in Cabinetmaking are relevant in industries beyond the construction trades and professions, and help prepare the student for lifelong learning and success.

## Program Type

Transfer

## Schools

Hylton High School
